Intuit Due

Name of Patient. _____

I have read the above statements and have received a copy of them if requested, and recognize their importance in helping me make decisions. My initials indicate that I have read and understand this consent document. I recognize that failures can occur for all kinds of reasons and that complications can occur in any procedure. I also understand that, where decay has occurred, or a tooth has fractured or abscessed, that these same forces are still working on the tooth even after it has been restored: therefore, decay or fracture can still occur as the restored tooth is no better than what nature has given in the first place. If for any reason a conflict or disagreement should arise I will first present such conflict or disagreement to my attending dentist in order to resolve the problem. If we are unable to agree on a solution, then I agree to take the problem to a reconciliation / mediation board such as the dental society and agree to accept their resolution in lieu of pursuing remedies by way of litigation. I also understand that this agreement is binding on my heirs and all other family members. I now give my consent to the attending dentist to render to me the dental treatment that we have agreed is necessary (or myself. I also agree to reimburse the attending dentist for all services rendered to me. and I am aware that the payment for these services is due at the time they are rendered.
